Ret:—
We have again to report further depression in the discount rates, there having been at one period of the week less demand, both at the Hank of England and in the open market, than has been the case at any time during the present year. So far as any favorable impression may be looked for through the requirements occasioned by returning activity in commerce there is nothing as yet to show that the trade of the country, as a whole, is improving or that tany general support can be expected for some time to come for any new enterprises. As much of the dile capital now seeking employment is but the proceeds of liquidations it is reasonable to suppose that the market will remain overweighted with currency until new projects are undertaken and made the means for employing it. The large contracts for the supply of raliway material have been of late carried off by Belgian houses, but it is understood that English houses prefer that they should "fill up" at present prices. In Russia, Austria and Hungary the governments are exerting it is understood that English houses prefer that they should "fill up" at present prices. In Russia, Austria and Hungary the governments are exerting themselves to extend as much as possible the rail-way systems of those countries, and with the in-creased demand for rails and rolling stock that will

matter of time when higher figures will be obtained and renewed activity witnessed in our iron districts, which would of necessity beneficially affect the money market to some extent. The cotton market continues to be dull, and gold, although upon a diminished scale, has been flowing into the Bank, there being no demand for export. Neither is there any demand for silver for the East, and any arrivals will probably be sent to the Continent.

The receipts for customs and the receipts, pay-ments and balances at the Sub-Treasury in this city for the expired portion of the week have been as fol

Chicago and Northwestern shares all day, but Erie continued heavy without any apparent cause. Loans continued to be made at 3 a 4 per cent on call, with the supply largely in excess of the demand, while drast class commercial paper is scarce and in request at 5 a 6 per cent.

Government securities were dull and steady during the morning, but in the afternoon they yielded slightly under the efforts of some of the dealers to depress them for the purpose of buying at the decines. It is unquestioned that there will be a heavy investment demand for bonds in July growing out of the disbursement of nearly forty millions in coin by the Treasury, and about thirty millions more in currency by the banks and railways, insurance and other companies, and the effect of this upon prices is early foreseen. Hence those who have not all the bonds they require are watching their opportunity to buy before the demand referred to is felt. COMMERCIAL REPORT.

WEDNESDAY, June 24—5 P. M.

Uncertainty with regard to the action of Congress upon the various bills of importance affecting the finance, tariff and revenue questions, which have been so much talked about since the failure of the impeachment project, renders the commercial status anything but favorable to a healthy development of trade. The merchandise markets have been unusually dull during the past week, even for this proverbially dull season of the year, and there is little to indicate any improvement until something definite shall have transpired in reference to the action Congress is to take. Imperted merchandise shows the common fate of domestic produce, which has to a great extent been neglected. But few of the leading staple commodities have been dealt in to any extent, and most of them have steadily tended in favor of the purchaser, even if they have not experienced WEDNESDAY, June 24-6 P. PLOUR AND GRAIN.—Receipts, 3,695 bbls. flour, 72,998 bushels wheat, 115,684 do. corn and 34,61 do. cats. The flour market was still in a state of demoralization, but the impression prevailed that prices had about touched bottom. Nevertheless some lots were pressed on the market and sold very low. Extra State was saiable to some extent for export at 38, but some poor sold as low as \$7.75. The general market at the close was dull but unchanged. California flour was dull but nominally unchanged. The sales were about \$.039 bbls. Southern flour was dull but nominally unchanged. Sales 350 bbls. Southern flour was dull but nominally unchanged. Sales 350 bbls. Southern flour was taddy, with sales of \$2.6 bbls. at our quotations. Corn meal was more active at steady prices. The sales comprised 600 bbls, at \$8.50 for yellow Western, \$6.35 a \$6.30 for Brandywine and \$6 for Marsh's caloric. We quote:

further sales were made of 250 bbls. on private terms. In Philadelphia the market was alightly more active and closed firmer. Sales were made of 4,000 bbls. standard white at 29½c. a 29½c, closing at the latter price.

Rio2.—The market was dull and prices were in buyers favor. We quote Carolina 10½c a 11½c. and Rangoon 6½c. a 7c., gold, duty paid.

Sto A.R.—There was a less demand for raw to-day and the amount of business done was light. Holders, however, were frim in their views, and the market closed firm at previous prices, viz:—13½c. a 11½c. for fair to good refining Cubaness and the sales were 461 bbd. at 11½c. a 15½c. for Ragins Island; also 600 bores at 11½c. a 14½c. For refined there was a fair demand at the following prices:—16½c. for powdered, crushed and granulated, 15½c. a 15½c. for soft white and 16c. a 15½c. for yellow.

and granulated, 15;c. a 15;c. for soft while and 16c. a 15;c. for yellow.

SERDA.—Calcutta imaced was dull and nominal. Grass was dull and nominal at 16c. a 10;c. for clover, \$2.50 a 25 50 for timothy and \$2.50 a 25 for rough flax.

STRABINK.—The demand was light. Small sales were made at 1fc. a \$117;c.

TALLOW was moderately active and steady in value. The sales were \$0.000 libs at 12c. a 125;c.

WHISKEY.—Receipts none. The market was dull and prices were entirely nominal.

THE DRY GOODS TRADE.

We are still greeted on every hand with the stereo-typed assertions that "the market is dull and heavy," or "the market is without improvement," and from the existing state of affairs we can discern no ground upon which to base a hope of any improvement for some time to come. Since the writing of our last weekly report the market has been influenced to some extent by the firmer tone of the Liverpool cotton market, but the reaction from a buoyant to a depressed market accompanied by a decline in prices both in Liverpool and here, has exerted a depressing influence for a day or two past, and dealers would gladly sell on the basis of last week's prices. But buyers are few and far between, and the few who are buying are doing a hand to mouth business, and act as though they expected a great reduction in prices, even when the probabilities of a decline seem more than usually remote. Buyers have, in all probability, been enabled to drive better bargains this week than they will for some time hence, as the jobbers are making preparations for an active fall trade, and hold nearly everything except odd lots at full figures. In order to clear out odd lots, however, they are frequently placed at prices considerably below the regular market quotations, but this is the only way in which they can be worked off. The future of the domestic cotton goods market is dependent upon so many "ifs" that it is idle to speculate upon it. The growth of cotton, the tinkering of the Tariff and Currency bills, &c., all have so direct a bearing upon the goods market that the future of the market cannot be foretoid with any degree of accuracy until these questions shall all have been settled or until Congress adjourns.

The jobbers are slowly making up stocks for the fall trade, but their purchases are small; and they being almost the only buyers the market wears a very dull, unpromising look.

Buckather Muslins have been dull, but holders have granted no further concessions, though at the close there was more disposition to meet the views of purchasers, when any are found.

Buown Muslins also continue in limited request, but prices are substant or "the market is without improvement," and from the existing state of affairs we can discern no ground
